

Preliminary Amendment
USSN 09/913,885

Detailed Description of the Invention

IN THE CLAIMS:

Please enter the following amended claims:

4. (Amended)A method according to claim 1, characterized in that:

the dedicated memory is placed in a mobile telephone (1), the mobile telephone being used as a modem, and the transmission network then being a mobile telephone network.

5. (Amended)A method according to claim 1, characterized in that:

the dedicated memory is placed in an ISDN-type modem, the modem making it possible to connect the caller to the called party via an ISDN used as a transmission network.

6. (Amended)A method according to claim 1, characterized in that:

the size of a user message is limited to 35 eight-bit bytes at maximum.

7. (Amended)A method according to claim 1, characterized in that:

the user message is enciphered with an enciphering key prior to being transmitted;

and

the user message is deciphered with a deciphering key on being received.
